Subject: Re: Your visit

Dear Prof. Goldwasser,

Sorry that I did not reply to you on time today. I planned to get more answers to your questions in the previous mail and then confirm with you.

1. MOU related:
We did receive your confirmation about the latest version of MOU. And I had started our internal process of signing the MOU, which will be accomplished next week.
So, we would like to suggest to sign the MOU next week after finishing our internal process, before we depart from Shanghai to Israel. Hope this is OK with you.

2. Israeli companies:
I am afraid that we may still need more time to be sure whether we will have these 3 companies this time.
Regarding the companies we met last time, I am not sure how many of them will still be available for our co-operation, since we heard that some of the companies we met last time had already been funded.
We will also go through these companies. If there are certain companies we would like to visit again particularly, we will inform you about that.

Thank you very much! Have a nice weekend!

Best Regards,

Yun

: Your visit

Dear Dr Jiang

I hope all is well with you. First I wanted to make sure you received my notice that we accept the latest version of the MOU you sent.

In addition we had a meeting earlier today about the companies we will show you. Some of them are truly amazing. We will work on the visit plan to these companies early next week and will send you an itinerary later in the week.

I wanted to ask you specifically about three companies you met last time. I wonder whether they generated enough interest that you think Mr Qu would like to meet with them. I am referring to:

1, Starlet Derma

2. Medymatch (software for diagnosing imaging techniques such as CT MRI etc through use of pattern recognition, machine learning and big data)

3. Zebra - similar technology to Medymatch with a different business model based on crowd sourcing.

If there are other companies you met last time, that based on your work, you believe Mr Qu would like to meet with personally, please let me know so that we may work them into the schedule.

Best Regards and have a relaxing weekend,

Benad
